HMC Architects' Sacramento Office Expands To 22 With The Hiring Of Two Seasoned Project Managers: Rick Sacksteder, AIA LEED® AP, And Brian Meyers Will Oversee Two Of The Company's Education Facility Design Teams

SACRAMENTO, Calif., November 2007—HMC Architects, a design leader in the education and healthcare architecture markets, has hired two seasoned project managers, boosting its Sacramento workforce to 22. The new hires include:

- Rick Sacksteder, AIA LEED® AP, a 25-year architecture veteran who has helped design education and civic projects throughout California, including the \$25 million modernization of Pittsburg High School in Pittsburg; the \$20 million Centennial High School project in Bakersfield; and the rehabilitation of historic county courthouses for Napa and Yolo counties.
- Brian Meyers, a veteran designer of college and K-12 educational facilities in Kansas, Missouri and California, including numerous projects for school districts in Sacramento, Stockton, and Quincy. Most recently, Meyers led the design of Washington Unified School District's new \$110 million high school in West Sacramento.

Sacksteder and Meyers, who were hired in September, are overseeing two of HMC's three education facility design teams in Sacramento. "Both Rick and Brian bring a wealth of design and project management experience to HMC Architects," said Phil Nemeth, managing principal of the company's Sacramento office. "They strengthen our design teams and help us as we continue to expand our business base."

Throughout its history, HMC Architects has established a reputation as an award-winning design firm and thought leader for education, healthcare, and government facilities. Founded in 1940, HMC is one of the largest planning and design firms headquartered in California with offices strategically located throughout the West. To learn more about HMC Architects or to arrange interviews with the firm's executive leadership, please contact Tracy Black at (800) 350-9979 and visit www.hmcarchitects.com.
